Why do we need education for parents?

- Lack of family support in diagnosis.
- Lack of adequate, free and early intervention.
- Lack of appropriate assistants for children with autism in regular schools.
- Lack of support for adolescents and adults.
- Parents are influenced by unverified information from the Internet that promises to "cure" autism through unverified methods.

Why do we need education for parents?

- **Parents know their child best.**
- **Parents can most help the child.**
- **Appropriate parenting procedures lead to appropriate actions by professionals.**
